

MEP

The communities of the MEP did participate in the worldwide day of solidarity and prayer in many different ways, each community in the way that suited best their mutual situation. Some were taking turns in praying in front of the Blessed Sacrament, others have been organizing silent prayers where each sister prayed in her room or with enough distance in the chapel, using the prayers in times of a pandemic provided by the Generalate.

We prayed especially for all those infected with the corona virus, for the doctors, nurses and caretakers dedicated so intensely to heal them, we commemorated the death and prayed for those who are mourning.

As the measures of isolation are still relatively new in our countries, many of us still have to adapt to this new situation. Thus, the prayers have been very different to how we organise them in other times and we felt very gracious for the worldwide relatedness and solidarity.

Some of our sisters are working as hospital chaplains. They are especially trying to overcome the physical distance and be socially available for their patients even from afar. We included them in our thoughts and prayers and appreciation.
